

Maths and Me Number Practice Booklets

Looking for additional number practice for your class?

Introducing our **NEW Maths and Me Number Practice Booklets**, designed to provide additional consolidation of numeral formation and number practice for both Junior and Senior Infants. These 40-page A5 booklets are the perfect complement to the core **Maths and Me** programme, and are also suitable for use with other programmes or independently.

- The **Junior Infants Booklet** covers numbers 0 to 10, dedicating a double page to each number. Numbers are revisited regularly throughout to promote deeper understanding and reinforcement.
- Numeral formation is supported through finger tracing and rainbow writing initially, followed by tracing then writing activities. Children using the booklet can access helpful numeral formation animations for additional support in school and at home.

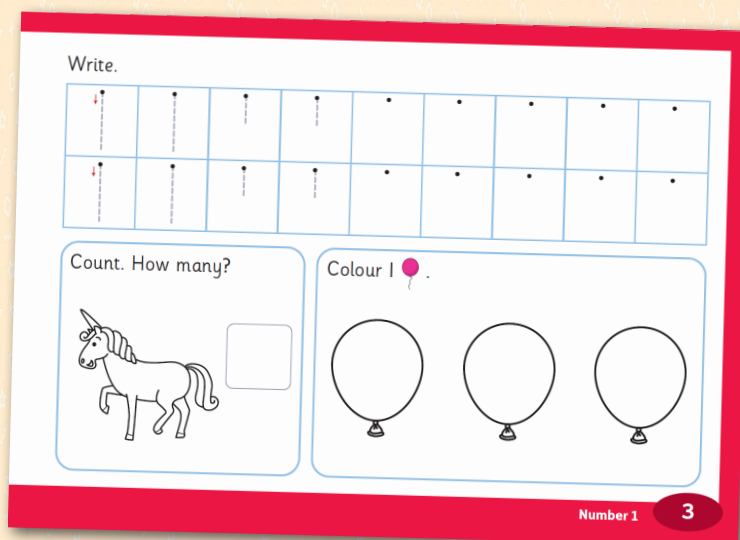

Rhymes are included in the animations to support numeral formation.

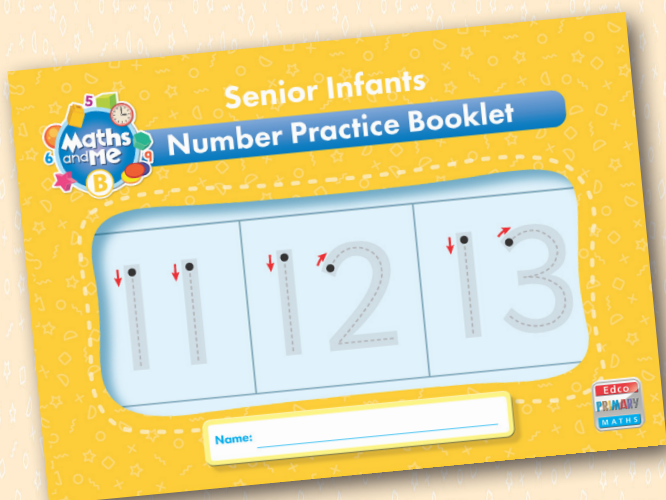

- Varied activities support aspects of number including counting, matching numerals to sets, composition of number and ordinality of number.

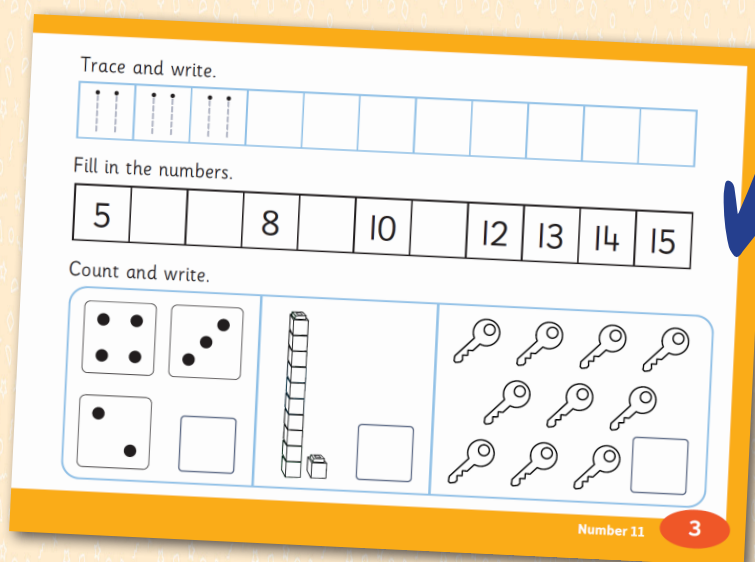

The booklet is playful and features Monty the dog and the **Maths and Me** characters.

- The **Senior Infants Booklet** revises numbers 0 to 10, then covers numbers 11-20, dedicating a double page to each number. Numbers are revisited regularly throughout to promote deeper understanding and reinforcement.
- Mathematical models such as number paths and branching bonds are included to strengthen children's understanding.

- Multiple representations of number are included to support learners in visualising and understanding number.

Why Choose **Maths and Me** Number Practice Booklets?

- Comprehensive Support:** Extra practice for numeral formation and number skills.
- Engaging Content:** Fun, interactive activities for young learners.
- Flexible Use:** Perfect for complementing existing programmes or standalone use.
